

CTEIS User Group Conference Call
Wednesday, March 11, 2009
2:00 – 3:00 pm

Notes from Conference Call

1. Roll Call of CEPDs. (See attached)

2. PTD Update

- 4483D Training – The new format for the training sessions (1st part focused on **new** CTEIS users – 2nd part for more experienced users) has been well received. Monday (March 9th) Carrie pilot-tested a web-based 4483D training, and received very positive feedback. Web-based training allows for flexibility, and provides training opportunity for those CTEIS users who may not be allowed to travel – or CTEIS users who travel long distances to attend a live training session.
- 4483D Issues – There have been lots of questions as CTEIS users become familiar with the new UIC Checker, and begin to understand the UIC error messages. (This is a whole new UIC checking process with new tools provided by CEPI.) There is a problem with the validation ***timing-out***. This problem doesn't affect everyone – mostly districts with large numbers of classes. This may be partly due to the additional processing necessary to accommodate the implementation of segments. PTD is currently working on a solution.
- A new ***Data Code Manual*** has been developed and posted on the PTD website www.ptdtechnology.com/cteis. (Located under the **Data Code Manual** heading – and divided up according to topic.) This manual contains all CTEIS data elements, as well as their definitions and/or requirements, and will be continuously updated as changes occur. ***We encourage CTEIS users to take a look at this manual, and provide any comments or feedback to PTD Technology or OCTE.*** The feedback you provide will be helpful in making this document more user-friendly and practical. (Note: This is a huge document, and because it will be updated frequently, you may prefer to access it electronically – rather than printing it out.)

3. OCTE Updates

- Please try using the ***Ad Hoc Query Tool*** if you get a chance. Your feedback is essential to the improvement and usefulness of this tool.
- Coop Warning Resolved – When districts first began reporting Coop enrollment on the 4483D reports, they were receiving an error message regarding no segments reported. (Segments are ***not*** required for Coop.) PTD has since fixed this problem, and districts will no longer receive this warning.

4. Issues from CTEIS Users

- Kathy Steinbach had a question about reporting the 4483D on “**count date**”. Actually, CTEIS is set up to count all students whose status is **enrolled** on count date. Districts need to be certain that their students’ **enter** and **exit** dates are accurate. CTEIS will automatically make the determination (based on the students’ enter and exit dates), whether or not students should be counted for Added Cost funding purposes. Most districts do not update their enrollment records on a daily basis. So, although it’s feasible that a district could submit accurate 4483D data on the count date, it is highly unlikely that all the “drops” and “adds” that occurred before count date would be included. (Note: wording in 4483D manual is confusing – needs to be revised.)
- Shaun Falberg-Harvey indicated that when she attempts to run the 4483D validation, her computer freezes. PTD is currently working on a solution.
- Sara Lodewyk received a warning regarding only 1 segment identified. If this is an accurate statement about the course-section, then just ignore the warning. CTEIS will allow 4483D submission with **warnings**, but will not allow submission with **errors**. If this is a Coop course-section, Coop will default to 1 segment, which is fine. For Family Consumer Science (FCS) programs, use segments that corresponds to the FCS course numbers being taught.
- “**Counted Students Less Than Total**” warning is confusing to CTEIS users. This warning occurs when the number of students that are eligible to be counted for Added Cost funding in a course-section is **less** than the total number of students currently enrolled in that course-section. This situation may be legitimate – for example, students entered the course-section **after** the count date occurred. Or it might be a case where students are enrolled on count date, but not counted due to program stipulations (9th graders – not always counted for funding). This warning was developed to help alert CTEIS users to possible inaccuracies in student enter and exit dates that caused their students not to be counted for funding purposes. So please don’t automatically ignore **warnings**; it’s better to verify accuracy before submitting the 4483D Report.
- Randy Maurer indicated that under **Management Enrollment**, in the **UIC Look-up**, students are duplicated in **Find Available Students**. Randy will email Doug some examples of students for which this occurs, and PTD will look into it.

Next Scheduled CTEIS Conference Call, **Wednesday, April 15, 10:00 – 11:00 a.m.**

CEPD Roll Call

*Note: If you participated in the March 11th conference call, and your name is not checked, please email Joan Church to be added to the attendance list.
